BOAT POLICIES Covering Boats at Maitland Valley Marina and Maitland Inlet Marina

These boat policies are to be followed by all boat owners. **Your signature on the Boat Dockage Renewal Sales Order confirms your acceptance of these policies and is required to secure your dock or storage reservation, otherwise you will be requested to remove the boat from the property.** Failure to adhere to the marina policies may result in the boat owner being required to remove the boat from the premises and refusal to renew their dock agreement.

DOCK PROVISION POLICY

Dockage Assignment and Renewal

1. All dock assignments are done by the office **only**. When possible, a choice of docks may be given. Boats located in unassigned docks will be moved by marina staff without notification to the owner to allow the assigned user the use of their dock.
2. All boat owners are responsible for having boat insurance and assume all liability risks not covered by their insurance for damages caused by themselves or their guests.
3. Docks must be confirmed with payment, either in full or the required deposit as stipulated in the current rates sheet and accompanied by a signed Boat Dockage Renewal Sales Order preceding each and every dockage season. Prior season dock lease holder will be assigned the same dock each season except where the dock was leased for a single season only at the request of the original dock renter. Should the original dock renter decide not to renew the dock in the next season, the temporary assignee has the first right of refusal for that dock slip.
4. Docks not previously paid in full must be paid in full by April 1st of the dock season. Docks not paid in full may result in dock being forfeited and reassigned to an alternate customer. Dock usage commencement is determined by when boat is launched or arrival at marina by other means.
5. Any unconfirmed docks will be considered available for other boaters with appropriately sized boats upon request after **November 1st.**
6. Docks left vacant for several days by the boat owner for any reason may be used by the marina to dock transient boaters. Thus, to ensure you are not surprised by another boat in your slip, please inform the office when your boat will not be in the marina for an extended period and include your return date.
7. When dock repairs are needed, it will sometimes be necessary to temporarily reassign you to another dock until the repairs are complete. The Management will determine the priority of work being done and the time frame in which it is done.
8. All dockage payments made by credit card are subject to 2.5 percent surcharge based on the amount of payment.
9. Please refer to the dock agreement for any items that may not be specifically covered in this document.
10. The price charged for dockage covers only the use of the dock and common facilities (bathrooms, pool, beach, designated lawn areas, parking) and does not include any other services such as public launch ramps, mast hoists, etc.
11. All customers are required to maintain current contact information with the office and to provide complete information regarding their boats. Carefully review the Boat Dockage Renewal Sales Order each year and provide all missing or incomplete information when returning a signed copy to the office.
